PHOTOGRAPHY & VIDEOGRAPHY

BROCHURE 2019

Congratulations on your Engagement

Planning your Wedding can be a daunting task with so many options, so we hope this brochure will help you out a little when it comes to choosing your wedding capture for your big day.

We are Natasha & Chris, a duo of creative Wedding Photographers and Videographers collectively known as HowarthMiller Weddings.

We specialise in Wedding Photography and Videography across Yorkshire and the East Midlands but love to travel across the U.K. and world discovering exciting venues and adorable couples!

Put simply, we film and photograph your amazing day spending every second trying to capture the heartfelt moments that tell your unique and beautiful story.

If you have any questions or just fancy a chat then please don't hesitate to get in touch with us at anytime!

Big Love

A bride and groom are shown in profile, kissing in a lush green forest. The bride is wearing a white lace wedding dress with a long veil, and the groom is in a dark suit. A large, reflective disco ball hangs from a tree branch above them. The scene is romantic and natural.

Photography

Our photography package includes ...

- 2 Photographers
- 1 full day of photography on location
- Post production/editing time
- 300-500 fully edited high resolution images
- Your Wedding 'Photo Highlight's' to share online
- USB device containing all edited images

The finer details ...

Having photographs to capture your day is a traditional MUST HAVE for many couples, however some couples are not huge fans of being in the spotlight, that's why we use our skills to make sure you are completely comfortable around the camera, making a conscious effort to be as discreet as possible as to not interfere or change any part of your day.

We take natural candid shots throughout your wedding day, from your morning preparations to your first dance and will usually stick around for half an hour or so after this to capture more of your reception.

We will arrange with you before the wedding to have a little time set aside for any formal family/friends photographs after your ceremony and will also request to take you both away for a short while to get some beautiful shots of the two of you alone.

We promise not keep you from your guests for hours on end and we are very conscious that you are completely relaxed and comfortable on your big day, so be assured that we are there to capture the day as it happens, NOT change it or make you do any uncomfortable poses that make you feel awkward, we believe that natural photography is the best way to capture your day and get the best out of your photographs.

We will contact you a few weeks before your big day to get details such as timings and venues and will also ask you for any specific shots you would like on the day.

It's as simple as that! Once we have photographed your day we spend our time carefully selecting the best 300- 500 shots from the day and edit them to give them that extra bit of sparkle!

You can expect a photo highlights from your day to be online within 4-6 weeks and your full finished photographs within 6-8 weeks, please note that these guidelines are based around our peak times and you will often receive your finished package much sooner.

The price ... £1000

Videography

Our videography package includes ...

- 2 Videographers
- 1 Full Day of Photography on location
- Post production/editing time
- 2 DVD copies of your feature film and highlight's
- Your Wedding highlight's trailer to share online
- USB device containing your highlight's trailer and feature film

The finer details ...

Long gone are the days of huge camera's and clunky equipment, having a wedding video is one of the most important investments you can make when it comes to your wedding capture, you can have your full ceremony, speeches and everything in between captured forever to re-live time and time again.

We film natural candid shots throughout the day and stay as in the background as possible.

The only time you can expect us to approach you during the day is to mic up the Groom during the ceremony and any guests that have the honor of delivering a speech. You will receive your full feature film with your ceremony and speeches in full.

We are more than happy to work along side a photographer on the day as we are all part of the same team with the vision to capture your day to the best of our abilities! We love working with other suppliers so if you already have a photographer booked let us know so that we can introduce ourselves or say 'Hi!' if we have worked together previously.

Again we will contact you a few weeks before your big day to get details such as timings and venues, and will also ask you for any specific shots you would like on the day.

Once we have filmed your day we spend our time editing and colour grading your shots to give your final product a more polished cinematic feel.

You can expect your highlights to be online within 4-6 weeks, we will then ask you to select a few songs to be the soundtrack to your film. Your finished film will be with you within 6-8 weeks but again this is based on our peak times and is often with our couples sooner.

The price ... **£1000**

Photography & Videography

Our combo package includes ...

- 2 Photographers/Videographers
- 1 Full Day Photography and Videography on location
- Post Production/Editing Time
- 300-500 Fully Edited Photographs
- 2 DVD Copies of your Feature Film and Highlight's
- Your Wedding 'Photo Highlight's' & 'Highlight's Trailer' to share online USB with all edited images, Plus your Feature Film and Highlights Trailer.

The finer details ...

This package is the best of both worlds, you get everything from our photography and videography package combined!

There will be 2 of us on the day filming and photographing at the same time and this is a great way to minimise the amount of people capturing your day whilst getting beautiful professional footage and photographs that perfectly compliment each other.

This is our most popular package and many couples wonder how we capture both photography and videography at the same time. Not only have we been capturing weddings for over 3 years and honing our skills to make sure we deliver a product that all our couples are over the moon with, we have specialist equipment to capture cinematic shots from the day and are both also equipt with two camera's so that while we are capturing your video shots we can also snap away to ensure you have a wonderful selection of photographs.

During your morning preparations we will film and photograph at the same time and will also switch roles throughout the day especially when capturing your more formal shots to ensure that we are focused on producing timeless images and film to make your final product priceless.

To make sure our prices are competitive by combining our two services you get a nice little discount for choosing us to capture your day with both photography and videography.

You can expect your photo and video highlights to be online within 4-6 weeks, we will then ask you to select a few songs to be the soundtrack to your feature film.

Your complete package will be with you within 6-8 weeks but again this is based on our peak times and is often with our couples much sooner.

Meet the Team

Kind Words

CHRIS HOWARTH - DIRECTOR
PHOTOGRAPHER + VIDEOGRAPHER

NATASHA MILLER - CREATIVE DIRECTOR
PHOTOGRAPHER + VIDEOGRAPHER

Firstly ...We **LOVE** our job and consider ourselves so lucky to have been a part of hundreds of weddings UK wide! We are Chris and Natasha and have been capturing Wedding's full time since 2015, our passion for filming came from our prior careers in the music industry and our obsession with all things film.

We started out as a corporate media agency and after a few requests from couples to film their big day we well and truly got the bug and fell in love with filming and photographing weddings. We are a great team and have been a couple ourselves for over 8 years (awwww!) and have recently got engaged ourselves! For us each wedding is completely unique, we love to capture the finer details of your day and give you as many memories to cherish as possible.

We always provide couples who choose to have us as their videographers with the full audio of your whole ceremony and speeches because we know that the word's spoken on your wedding day will be the ones you will want to remember for the rest of your life.

We are a very easy-going couple and want you to be as comfortable as possible on your big day so practice discretion above all, this doesn't mean that we won't speak to you at all on the day but we know that you have hired us as professionals and expect a level of professionalism from us. If you want to grab us on the day for impromptu shots or if you have had enough time away from your guest's during your couple shoot then please don't be afraid to tell us!

At the end of the day we are there for you and not the other way around. So enjoy your big day and feel safe in the knowledge that we will capture your wedding in all its glory with zero hassle!

Big Love
