PHOTOGRAPHY & VIDEOGRAPHY

We believe that each and every wedding is unique and your photos and film should tell the story of **YOUR** day.

We pride ourselves on our unobtrusive approach to capturing weddings, staying as in the background as possible to achieve those gorgeous candid shots and REAL emotions that our couples love.

We understand that the thought of being in front of the camera is often more scary than it actually is, so making sure that you are relaxed and comfortable in front of the camera is our priority.

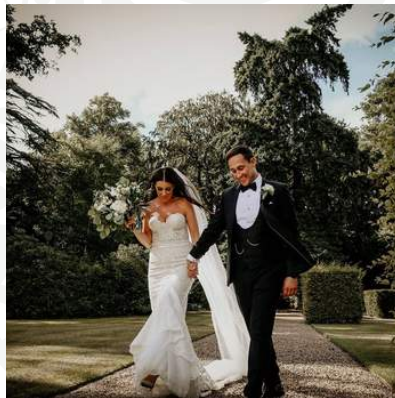

We will of course give you a little direction during your couple portraits to get those WOW shots of the two of you and find that having a laugh with you both is often the best way to create stunning photo's and film.

“ THANK YOU FOR OUR BEAUTIFUL WEDDING PHOTOGRAPHS & FILMS AND FOR CAPTURING THE MOST MAGICAL MOMENTS OF OUR DAY. ”

PHOTOGRAPHY

BEFORE THE BIG DAY

We will be in touch around 4 weeks before your big day to go over your timings, locations and any details we need to make the day run smoothly. At this time we will also ask for a small list of any family/group/formal photographs that we can reference on the day to keep timings on track.

ON YOUR WEDDING DAY

We will arrive at your prep location 2 hours before your ceremony to capture the finer details and the excitement of the wedding morning.

We will arrive at your ceremony location prior to the ceremony to capture the arrival of yourselves and your guests and photograph the full ceremony.

We will arrange with you before the wedding to have a little time set aside for any formal group or family/friends photographs after your ceremony and will also request a list from you prior to the big day so that we can organise the photographs of your wedding party.

We will then ask to take you both away for a short while to get some beautiful shots of the two of you alone. We will take you both for a short tour around your venue to capture your couple portraits and don't worry we will help with direction of your shots!

Our favourite photographs to capture are when you are both in the moment and enjoying having time alone together, whether you are laughing or kissing or talking about your first dance, we love to capture the emotion and happiness of our newly married couples.

We capture moments throughout the whole day and say goodbye around half an hour after your first dance and cake cutting to capture a slice of the vibe of the evening reception.

AFTER THE WEDDING DAY

After your big day we carefully collate your collection of between 300-500 fully edited high resolution images.

We then select between 50-100 highlight photographs and provide you with an online preview within 4-6 weeks.

You will also receive 10 gloss photo prints (5x7) in your final package and will receive the full 300-500 fully edited, high resolution images on USB for you to make copies, prints, albums or be as creative as you like!

You can expect delivery of your final package within 6-8 weeks of your wedding.

ON YOUR WEDDING DAY

We will arrive at your prep location 2 hours before your ceremony to capture the finer details and the excitement of the wedding morning.

We will arrive at your ceremony location prior to the ceremony to set up our equipment and capture the arrival of yourselves and your guests. Your feature film will include the full ceremony and we will mic up the appropriate party members to capture clear audio.

PRE-WEDDING SHOOTS

WHAT TO EXPECT

A pre-wedding shoot is a great way to get used to being in front of the camera and to try out different poses together so that you know what works for you on the big day. We know that the idea of being in front of the camera can be a little scary so our pre-wedding shoots are designed to subside any fears or preconceptions you have about being in the limelight.

If you have chosen one of our packages that includes a pre-wedding shoot we will ask you about the time of year you would like to do your shoot and get a date booked in our diary.

We will meet you both at a location of your choice for around 1 hour and will help with the direction of your shots to achieve beautiful natural looking photo's for you to use in your wedding stationary.

We will provide you with between 30-50 fully edited images as a download and your photo's will also be added to your final package on USB.
