I believe your wedding photography should be fun, candid and in the moment. I love to capture the details, the laughs and all the magical moments as friends and family come together. You can share unforgettable treasured memories for years to come because this is your special day and I would be pleased to be a part of it.

Before your

Wedding Day...

When it comes to your wedding day I want it to be perfect, that's why I request to arrange a face to face meeting with every couple so that we can get to know you a little better and discuss any specific shot requirements you might have for your big day. I also want you to feel comfortable and reassured that we are there to capture the day and not change it. I will ask for rough timings of your day and addresses of venues so that I can plan where I will need to be on the day. I am more than happy to liaise via email or telephone nearer to the event.

The Details ...

1 Day of photography on location.

Post production & editing time.

Your wedding photo highlights to share online.

1 USB version of your full wedding photographs so you can share them

A keepsake photo book

Your Full Wedding Photographs

With more than 300 edited, high-resolution images from your big day. I ask all of our couples to supply us with a list of desired posed photographs and spend the rest of the day snapping away to deliver reportage style, natural photographs, capturing all the love and laughter of your wedding day. We then send you all the images in USB format so that you can keep them digitally and the way you develop them is up to you!

Our Photography Style

Our style of photography is all about capturing your day as naturally as possible. We do like to take a few group shots and posed photos of our lovely couples but we won't be keeping you away from your guests for hours on end.

A Quick Turnaround

Your full wedding photographs are being edited with so much love and attention that they can take a little longer but we promise they will be with you within 4– 8 weeks!
